

PUBLIC PARTICIPATION SESSION

Highways & General Purposes Committee – 1st March 2023

063/23H **Public Participation:** The Public Participation session opened at 7.31pm. One member of the public joined the meeting.

The member of the public advised that she is the Chairman of the Barn Green Allotment Committee and was representing her members on the subject of speeding traffic along Hambledon Road outside the entrance to the allotments. There have been several near misses and so the Committee would like to put up a visibility mirror.

The Chairman advised that the hedgerow opposite is owned by Taylor Wimpey and is managed by their maintenance contractor, and so permission would need to be sought.

An alternative suggestion was given to install two mirrors on either side of the allotment entrance on their own land.

It was agreed that the Committee Clerk would obtain the contact information for the member of the public to contact Taylor Wimpey, and that the member of the public would think about the alternative location for the mirror(s).

The Chairman closed the Public Participation session at 7.35pm.
